

# SUPERFUND RESEARCH PROGRAM LOUISIANA STATE UNIVERSITY

## Recruiting Graduate Students and Postdoctoral Researchers Fall 2015

**LSU Superfund Research Program** is an interdisciplinary environmental program and brings together researchers from the basic and biomedical sciences tackling a broad group of interconnected issues.

Big Research Team

- **Louisiana State University**  
[www.lsu.edu](http://www.lsu.edu)
- **LSU Health Sciences Center in New Orleans**  
[www.lsuohsc.edu](http://www.lsuohsc.edu)
- **University of Tennessee Health Science Center**  
[www.uthsc.edu](http://www.uthsc.edu)

Admission

Students can enter the program through:

- Louisiana State University
- LSU Health Sciences Center in New Orleans
- University of Tennessee Health Science Center

Research  
focus on

- Formation and stabilization of **Environmentally Persistent Free Radicals and Pollutant-particle Systems**; and
- Their impacts on respiratory and cardiac health.

### More Information

- Visit our website: [www.srp.lsu.edu](http://www.srp.lsu.edu)
- Contact:

**Robin L. McCarley**, *Training Core Leader*  
[tunnel@lsu.edu](mailto:tunnel@lsu.edu); Tel: (225) 578-3239

**Barry Dellinger**, *Program Director*  
[barryd@lsu.edu](mailto:barryd@lsu.edu); Tel: (225) 578-6759

### Benefits for Students

- Opportunity to work on a new paradigm for the impact of particulates on human health
- Environment that fosters interdisciplinary training and educational opportunities
- PhD fellowships available
- Exposure to and training with cutting-edge physical and analytical science methods and instrumentation
- Opportunity to network with peers by participating at seminars, meetings and conferences
